Ayer's Cherry Pectoral.

For the rapid care of Coughs, Colds, Hoarseness, Bronchitis, Whooping Cough, Asthma and Consumption, is universally known as the best remely ever yet discovered for every variety of Pulmonary disease. So wide is the field of its usefulness and so numerous the cases of its cures, that aimost every section of the country ab unds in nersons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer heselling community, well satisfied that the Officers and Agents will spare no exertions to desire their favors. itate what antidote to employ for the distressing and dan gerous affections of the pulmonary organs which are incident to our climate. By its timely use many, nav almost all attacks of disease upon the Lungs or throat, are arrested and thus are saved many thousands every year from a premature grave. No family should be without it, and those who do neglect to provide themselves with a remedy which wards of this dangerous class of diseases, will have cause to deplore it when it is too late. Proofs of the surprising efficacy of the Cherry Pactoral need not be given to the American people,—they have living proofs in every neighborhood. But those who wish to read the statements of those whose health has been restored and whose lives have been saved by its use, will find them in my American Almanac, which the Agents below named have to furnish gratis for every one.
